

# ASP.NET Training

ASP.Net in combination with MVC has been gaining much momentum recently. Microsoft technologies enable the creation of reliable, secure, and user-friendly web applications. With this program, you will be able to create LINQ to SQL queries, MVC applications, learn the difference between JavaScript and JQuery, **experience the client side operation, and build a fully functional web app.**

## Course Objective

Upon successful completion of this training, you will:

- Understand the practical/theoretical foundations of Microsoft Technologies used for web applications
- Develop applications for the required business problem/domain
- Learn expert patterns and techniques of enterprise developers

## Course Content

- ASP.NET
- MVC
- LINQ
- JQuery
- MS SQL Server
- Web API

# Why LearnAtRISE

- ⦿ LearnAtRISE is a skill enhancing initiative powered by Rishabh Software (RSPL), an IT Company with over **20 years of experience**, specializing in software development, engineering, recruitment process, and training services
- ⦿ **Full-time training Program**, Up-to-Date, and thorough course content
- ⦿ Wholistic **training and development** (Soft skills training included)
- ⦿ **State-of-the-art** infrastructure
- ⦿ Access our vast **network of experts**
